About The White House Historical Association

First Lady Jacqueline Kennedy envisioned a restored White House that conveyed a sense of history through its decorative and fine arts. In 1961, the White House Historical Association was established to support her vision to preserve and share the Executive Mansion's legacy for generations to come. Supported entirely by private resources, the Association's mission is to assist in the preservation of the state and public rooms, fund acquisitions for the White House permanent collection, and educate the public on the history of the White House. Since its founding, the White House Historical Association has contributed more than \$100 million in fulfillment of its mission.
