About the White House Historical Association

First Lady Jacqueline Kennedy envisioned a restored White House that conveyed a sense of history through its decorative and fine arts. She sought to inspire Americans, especially children, to explore and engage with American history and its presidents. In 1961, the nonprofit, nonpartisan White House Historical Association was established to support her vision to preserve and share the Executive Mansion's legacy for generations to come. Supported entirely by private resources, the Association's mission is to assist in the preservation of the state and public rooms, fund acquisitions for the White House permanent collection, and educate the public on the history of the White House. Since its founding, the Association has given more than \$115 million to the White House in fulfillment of its mission.
